## SUMMARY

Front-End Developer with over 5 years of experience creating responsive WordPress websites. Proficient in turning design into accessible, standards-compliant code (HTML5, CSS3, JavaScript), integrating HubSpot and GA4, and applying data insights to enhance SEO and user experience.

## EXPERIENCE

**Web Developer** March 2020 - Current
Marstudio, Inc. | Damascus, MD

- Developed static and dynamic WordPress websites by translating Photoshop mockups into responsive layouts using HTML, CSS, and JavaScript, delivering optimized user experiences across browsers and devices. Integrated plugins and custom components to extend functionality and ensure mobile-first design.
- Collaborated with designers and product managers to implement UI/UX improvements and deliver user-friendly websites for client companies. Participated in design reviews and usability testing to ensure alignment with brand standards and user expectations.
- Implemented SEO best practices and targeted content strategies to increase website traffic, improve visibility, and enhance user engagement. Optimized page structure, on-page content, and contributing to higher search rankings.
- Performed routine maintenance and updates on client websites, enhancing site speed and reliability through image optimization.
- Utilized HubSpot for marketing automation, including creating email campaigns and managing contact imports for platforms like Zoom.
- Executed and utilized Google Analytics tracking to create performance reports, analyzing data to generate insights that informed SEO strategies and drove conversion optimization.
